6/16/71

Dear Jim, Re; Spectro, Inv. Files, etc.

I think it would be good if we could both have copies of yesterday's Menard decision by Gesell. In it he restricts the FBI distribution of its fingerprint, bank, etc., record, or, the court record shows that the Williams affidavit is false and the argument that investigatory files are not used outside the government also false.

I noticed this on bringing the paper in. I've not yet read it.

HE
